

DENVER CORONER 660 BANNOCK ST. DENVER, COLORADO 80204-4507  
 FILE # 99-1581 NAME: DEPOOTER, COREY (4-313) DIF: 4-20-99  
 DATE OF AUTOPSY: 4-22-99 3 PM  
 DOCTOR: J.W.WAHE

PATHOLOGIC DIAGNOSES:

I. Multiple gunshot wounds, neck and chest

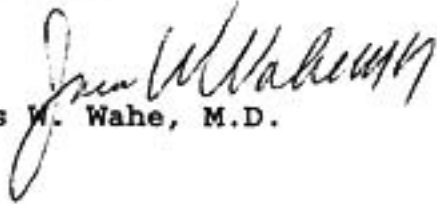

- A. Penetrating gunshot wound, neck and chest
  - 1. Indeterminant wound of entrance, posterior neck
  - 2. Hemothorax
  - 3. Fractures, left 5th rib
  - 4. Mildly deformed copper jacketed bullet recovered lateral left chest wall
  - 5. No wound of exit
- B. Penetrating gunshot wound, right back and chest
  - 1. Atypical indeterminant wound of entrance, right posterior back
  - 2. Hemothorax
  - 3. Mildly deformed copper jacketed bullet recovered, left lower chest wall
  - 4. No wound of exit
- C. Perforating gunshot wound, left arm
  - 1. Indeterminant wound of entrance, lateral left arm
  - 2. Wound of exit, medial left arm
  - 3. No missile recovered
- D. Perforating gunshot wound, left chest and neck
  - 1. Atypical wound of entrance, anterolateral left chest
  - 2. Laceration left subclavian vein
  - 3. No missile recovered
  - 4. Exit, posterior right neck

II. Blunt force injuries

- A. Cutaneous abrasions, forehead and right knee

OPINION:

This teenaged male, Corey Depooter, died of multiple gunshot wounds. Gunshot wound #3 and gunshot wound #4 may be one wound as the wound of entrance #4 is atypical and would be very consistent with a wound of reentrance and is in proximity but not in continuity with the gunshot wound of exit #3.

  
 James W. Wahe, M.D.
